I know we all like testimonials. But I find this very interesting about **Silver Shield liquid #4280-5**. If you are a fan, also consider my new book, now out called "*Outsmarting HPV*" Available from www.naturestools.com sound concepts

"Something interesting about Silver Shield. Fluffy, my dog makes bladder stones and had 3 removed last year. I started putting a little silver shield in the dog's drinking water. Her X-rays in Dec. showed no stones and again in March no stones. About April I stopped putting silver shield in drinking water because I thought it was not doing any good. August, she had another stone in bladder with surgical removal. Told the vet about the silver and said the silver shield may have kept her pH balanced - so body would not make stones. Guess what, silver shield goes in her drinking water every day now. If it works for dogs, why not humans?"

"The Surgery was \$350.00 that buys a lot of silver shield. Lesson learned!!!" **Jean from New Jersey adds 1/2 of a 4oz.dropper in the Dogs water dish every day now.**

I agree. Tracy and I did this with our dog to help the immune system. Our dog lived 4 more years than that breed normally lives with no vet bills. It was worth every penny of silver shield.

Here is another one (I am so glad people are reading these newsletters):

*"Dr. Jay, I used the **Essential Shield Blend #3887-8** on bug bites this summer. It worked fantastic to help stop the itching and healing. We don't go camping or outside without it. The kids like the smell too."* - June A.

CardioxLDL #1195-0 is making the headlines in NSP history! Now that people have had a chance to use this product for several months, their labs are proving why NSP applied for a patent on it!

Lois from Wisconsin brought in her lab results. She did this all on her own accord and had her doctor follow the results. She started her labs while on Rx Lipitor in Feb. 2015. She didn't like how it felt. After reading about CardioxLDL she decided to try just this natural until her next labs were due. In Feb. her total cholesterol was 242 (on Rx). In Aug. her total dropped down to 185 (with CardioxLDL - taking only what the label rec.). Her LDL (on Rx) in Feb was 162, in Aug after taking the product only = 113. Triglycerides 167 to 155. Her Chol/HDL ratio from 5.1 to 4.5 (normal is < 4.5).

So here are just a few instances of "Herbs work". Keep those testimonies coming America! Make sure you always inform your doctor what you intend to do as well (they usually don't read these newsletters LOL).

Many companies put their name on a product label and do not manufacture it themselves. We only trust Nature's Sunshine (800-453-1422). **The largest and safest in the world!** Information is for educational purposes only and not meant to diagnose or treat any disease.
